Checks should be made out to the City of Sunfish Lake. Checks must be sent to Lori Johnson at WSB, see address on first page.

Description of Request(s)

Filing Requirements—Minor Subdivision and Preliminary Plat

- All applications require a narrative detailing the application request and all pertinent information regarding such request.
- A completed application form and submittal of required fees and escrows.
- All applications shall be submitted electronically.
- City staff reserves the right to request additional information after the initial application.
- Certificate of Survey: The requested minor subdivision shall be prepared by a registered land surveyor in the form of a Certificate of Survey.
- If the property abuts a State or County roadway, written certification from the appropriate agency shall be provided which approves driveway access for the proposed parcels and waives the need for the provision of additional rights- of-way.
- The applicant shall provide a legal description for all drainage and utility easements that would have been dedicated to the City incident to the platting process. The easements shall also be shown on the Certificate of survey.

This filing requirements above are consistent with Sunfish Lake City Code Section 1302.02.

Please note that all Engineering Design Standards and the City's Comprehensive Stormwater Management Plan requirements must be met on all plans submitted with applications. These standards and requirements can be found in Sunfish Lake City Code Chapter 1208.

Electronic submittals: Submit to Lori Johnson, City Planner, at ljohnson@wsbeng.com.

Escrow Requirements

All fees and escrows must be paid at the time of application. The application fee covers the administrative costs incurred by the City. The escrow fee covers the estimated project review costs. Per Sunfish Lake City Code Section 202.03, the applicant

shall reimburse the City for all legal, planning, forestry and engineering costs incurred by the City in reviewing and processing the application, in inspecting the work performed, and in enforcing the permits and approvals given by the Council. The reimbursable costs shall be the actual costs incurred by the City based on the contracts for hourly rates that the city has for legal, planning, forestry and engineering services. You can have a great impact on controlling these costs by submitting complete and comprehensive documents, plans, and designs which respond to the application procedures that have been outlined in the application and that comply with city codes. The City Planner will monitor the escrow balance for your project and communicate outstanding balances. You may be asked to submit another deposit prior to approval of your project, depending upon your application.

If a project is abandoned before approval or completion, the escrow amount for the staff review time spent is retained by the City. Denial of a project does not reduce the money owed.

You will be billed at the end of the project by the City Treasurer if there is a negative balance associated with your application and you will be provided with a detailed itemization of project review costs. If there is a positive escrow balance at the end of your project, the City Treasurer will refund the balance to you.

Your signature on the application obligates you to pay any and all fees which are incurred from the time of application submittal through abandonment or project completion. By signing this application, you acknowledge that failure to comply with all requirements could subject you to a violation of Section 1203.14 of our ordinances.
