The market value for options is based on the current bid/ask. Where applicable, the change in price is based upon the last actual trade.

These valuations reflect securities or assets held in your account. The prices indicated are obtained from sources considered reliable, but may not represent actual market values. For bonds that receive principal paydowns, bond valuations may change before principal payments are received from the issuer. As a result, understated account valuations will appear on this page until payments are received. Payments are received from the issuer well before month-end statements.

Cost basis for fixed income tax lots has been amortized (for securities purchased at a premium) or accreted (for securities purchased at a discount), when possible, for applicable securities.
