

CITY OF SUNFISH LAKE

DATE: June 5, 2018
TO: Mayor & Council
FROM: Cathy Iago, City Clerk/Administrator
RE: Request for Sunfish Lake to Participate in Inver Grove Heights Fall Clean-Up Day

BACKGROUND: At their August 1, 2017 Council meeting Council granted permission for Sunfish Lake to participate in the Inver Grove Heights Clean-Up Day event which assisted in meeting the City's requirements to receive grant funds from Dakota County. The costs for participation in the event are shared by all the cities participating and are based on the number of residents that attend from each of the cities.

Inver Grove Heights has offered the cities of Sunfish Lake and West St. Paul to participate again this year. Sunfish Lake's participation in this event would serve to meet the one of the goals set forth in the 2018 grant application that serves to fund the City's recycling efforts and events.

If Council authorizes Sunfish Lake's participation, staff would promote the event in the Sunfish Lake Quarterly Newsletter and on the City website. The event is scheduled for September 22, 2018 at the City of Inver Grove Heights

Last year the cost was minimal as there were a small number of residents who participated. Staff does not anticipate the costs would be substantial and should be covered by the Dakota County funding that was received for 2018.

ACTION REQUIRED: Staff recommends that Council consider authorizing the City of Sunfish Lake to participate in the Inver Grove Heights Clean-Up Day in 2018 to assist with meeting the goals outlined in the 2018 Dakota County Recycling Grant application and to authorize the expenditure for participation based on the number of residents that participate in the event.
