2020 ROAD WORK AROUND MSP AIRPORT

Plan for major road work around the Minneapolis-St. Paul International Airport starting in April through October 2020.

- ▶ Eastbound Highway 5 will be closed from April until August.
- ▶ Westbound Highway 5 will be closed from August until October.

- ▶ Bridges and ramps to/from westbound Highway 5 where Highway 62/55 crosses will be closed for one month (July).
- ▶ Eastbound Highway 62/55 to westbound Highway 5 ramp will remain open.

- ▶ Eastbound I-494 will have weekend closures between the Minnesota River Bridge in Mendota Heights and 3rd Avenue in South Saint Paul.
- ▶ Schedule to be confirmed.

- ▶ The I-35E/I-494 interchange and surrounding area will be under construction from April through October, resulting in lane restrictions and ramp closures.

PLAN YOUR APPROACH

Give yourself an extra hour on the road if your destination is the airport. Highway 5 closures and detours will add time to your drive. Expect longer delays on highways around the airport during peak travel times. Before you drive, consider other travel options like light rail to help make your trip more predictable.
