Potential Arbor Day Green Fair Announcement

The Arbor Day Green Fair event has been cancelled so there will be no educational or recycling opportunities at the event this year. Baby trees are available for sale and family tree planting opportunities are still planned.

Baby trees may be ordered by contacting the City Forester and picked up at his home at 5900 Zehnder Road in Sunfish Lake. Contact me at 612-803-9033 or jim@lstrees.com with questions.

Arbor Day is a day for planting trees and we do have trees to plant in Musser Park. We can do this and still keep safely socially distant. A schedule of planting times will be set up and your family can sign up for your own time slot to do a tree planting together. Watch for the annual Arbor Day newsletter with a schedule of planting times available. New trees, planting holes, tools, and any other planting supplies will be prepared ahead of time. The Forester will be on hand to assist and coach tree planter teams/families (at a safe distance) as they install new trees in Musser Park.

This could be a memorable family event.

Jim Naves
City Forester
