April 30, 2020

Forester's Report 4 30 2020

Two burning permits were issued during April however we are under open burning restrictions until everything greens up this spring.

Street weight limit signs were taken down on Tuesday, April 14. Tree City USA signs were updated with 30 year participation stickers.

Arbor Day newsletter mailed out on April 9 and also put up on website.

Checked City trees along City streets several times during the month. No issues and no street-side dumping observed. Closed Sunfish Lake water outlet on April 20 so that ditch and culvert work along Delaware Avenue could be completed. Met with City Engineer on April 23 to open outlet again and monitor outflow.

Have had tree related questions from many residents and met with future residents or their representatives at 2150 Charlton Road and 1 Sunfish Lane.

Selective mowing was done in Musser Park, tree planting holes were augered, and other tree planting supplies were staged. As of 4-30-2020 four families have requested times to plant trees in Musser Park on May 2.

The Arbor Day Green Fair event has been cancelled, however baby trees will be for sale and family tree planting opportunities are still planned. Contact me at 612-803-9033 or jim@lstrees.com with questions.
