Forester's Report 2 25 2021

One burning permit was issued during February.

Deer feeding/Chronic Wasting Disease article published on City website. Seven Treeways articles were uploaded to website.

I have also sent the current working copy (separate email) of the the Tree and Vegetation Removal Guidelines developed in consultation with Councilwoman Hansen, the Planner, Engineer and Forester. This writing is a work in progress and there may be minor ordinance revisions required prior to publishing the guidelines.

Checked City trees along City streets twice during the month and monitored lake outflow of Sunfish, Hornbeam, and Horseshoe Lakes. No outflow is occurring recently from any of our three lakes.

Have been coordinating with three residents on writing three articles for the City website and EAB newsletter. Two have been published and the other will be released during March.

Arbor Day program is being developed. Will likely continue the scheduled "Plant a tree with the Forester" plan that we tried out in the Covid spring of 2020. Also planning for a masked in-person event since vaccines appear to be ramping up quickly now.

Jim Naves
City Forester
