March 31, 2021

Forester's Report 3 31 2021

Three burning permits were issued during March.

Two short articles were prepared for the Quarterly. Treeways articles #8 "Thanks Neighbors" and #9 "EAB Update" were uploaded to website.

Street weight limit signs were put up on March 4.

Met with landscape architect for 100 Windy Hill Road. Later met with consultant team for pre-permit application on-site meeting with owner/builder team at 100 Windy Hill Road.

Had telephone discussion with landscape architect for 369 Salem Church Road home building project regarding the tree replacement plan. Expect that initial tree replacements will begin this spring while home is completed.

Checked City trees along City streets twice during the month and monitored lake outflow of Sunfish, Hornbeam, and Horseshoe Lakes. No outflow was occurring recently from any of our three lakes.

Ice out on Horseshoe Lake was March 23.

Arbor Day program is being developed. Will likely continue the scheduled "Plant a tree with the Forester" plan that we tried out in the Covid spring of 2020. A memorial tree planing during a masked in-person Arbor Day event is planned since vaccinations are happening quickly now.
