Forester's Report 2 28 2023

No burning permits were issued during February

Checked City trees along City streets twice during the month. Even with heavy snowfall there have been no tree issues along City streets.

Monitored of outflow of Sunfish, Hornbeam, and Horseshoe Lakes and no outflow was occurring from any of our three lakes.

Several photos were taken of the 2050 Angell Road property related to a neighbor's questions and forwarded to the City Planner.

Five Treeways articles have been sent in for uploading to City website.

Ash trees near City streets were surveyed and trees were marked for removal at several locations. A request for bids has been sent out for these ash tree removals.

While the heavy snow this winter is a nuisance it will help replenish soil moisture after two drought years.
