Forester's Report 10 31 2024

Hornbeam Lake, Sunfish Lake and Horseshoe lakes were not flowing out of their outlets on October 31st.

No burning permits were issued in September and **with wildfire hazards increasing due to lack of rain in October I am not recommending brush burning until we get significant rain or snow.**

Street edge pruning has started with the areas along the west end of Salem Church Road on the north side, Windy Hill Road, and the north side of 60th Street. The crew is progressing faster than projected so additional pruning along Salem Church Road is likely next month.

A dead spruce tree well off to the east of Charlton Road fell to the west during one of our extremely windy days this month. Xcel was on site quite quickly to restore power and debris was cleared from the sides of the street a few days later.
