Forester's Report for January 2026

Hornbeam Lake, Sunfish Lake and Horseshoe lakes had no outflow during January 2026.

No burning permits were issued in January.

There have been no tree issues due to winter weather. We are having normal snow amounts and slightly colder weather than average so far this winter.

The annual Sunfish Lake Arbor Day event is scheduled for Saturday, May 2 starting at 9 AM. This year we will be planting trees and shrubs along the south shore of Horseshoe Lake in a shoreline restoration effort. Two nearby neighbors have previously done shoreline restoration projects, so this is a continuation of shoreline improvements around Horseshoe Lake.
