Forester's Report for May 2026

Hornbeam, Sunfish and Horseshoe Lakes had no outflow during May 2026.

One burning permit was issued in May.

Timberland Outdoor Services completed spring mowing of the north Musser Park meadow.

An additional buckthorn control method using a native fungus is being conducted in Harmon Park by a University of Minnesota Researcher.

The annual **Sunfish Lake Arbor Day event was Saturday, May 2 starting at 9 AM**. This year volunteers planted 220 trees and shrubs along the south shore of Horseshoe Lake in a shoreline restoration. Nineteen neighbors and friends from around the City participated in this joyful community event. "No Brush Mowing" signs were installed along restored shoreline of Horseshoe Lake and fencing was installed by property owners to protect newly planted trees and shrubs.

Began removing welded wire cages and deer trunk protector tubes in preparation for pruning and care of young trees in Musser Park.

Our street edge mowing contractor has been requested to completed the first mowing by June 15.
